EDUCATION

Manakula Vinayagar Institute of Technology, Puducherry [2020-2024]

Under Graduate Bachelor of Technology[B.Tech] in Information Technology CGPA - 8.9.

PROJECTS

MAIN PROJECTS

Advance AI Display Voice Assistant for Deaf & Blind using IOT.

We had enhance the voice assistance system to cater specifically to individuals with physical disabilities, such as the deaf and blind. Consequently, we have transitioned from a software-based solution to a hardware device, which is portable and can be conveniently carried anywhere.

PROJECT PROPOSAL

Virtusa (Jatayu Season 3) Shortlisted - Online Collaboration using mixed reality - My Team and I developed an Online Collobration on Mixed Reality by using Unreal Engine, which can interactive, immersive learning experiences on meetings. The benefits would be cost-savings, increase productivity, improve communication and enhanced teamwork.
